The Australian National University  
Canberra, ACT, 0200, Australia

## PARENTAL CONSENT FORM

I agree to allow my child, -----, to be interviewed for the **Interpersonal and Family Relations in Transcultural/Transnational Marriages** project and give my consent freely. I have read and understand the Information statement and I am fully informed regarding my child's participation. I am aware that the study explores the personal, family and community relationships that are constituted through intercultural courtship and marriage in Australia. I understand that participation is voluntary and interviewees are free to withdraw at any time. I agree to the use of audiotapes in the interview and understand my child can request erasure of the tape at any time and that the tapes will be destroyed after transcription. I am aware that confidential information and interview data will be securely stored in a locked filing cabinet in Dr Saroca's office and on password protected computers, which only the researchers have access to, as far as the law allows, and destroyed by shredding after five years. I understand pseudonyms will be used for individuals and other identifying features removed when audio tapes of interviews are transcribed and in any publications. I understand that information obtained from the interview will contribute to research and conference papers, journal articles and books about marriage migration and intercultural families in contemporary Australia.
